HUBBELL MARINE SPONSORS REGATTA

Hubbell Marine, manufacturer of marine electrical components, is an official sponsor of Safe Harbor Race Weekend. The three-day sailing regatta takes place in Narragansett Bay, Newport, Rhode Island, August 12–14.

Safe Harbor Race Weekend is all about good sportsmanship, great competition and sailing camaraderie. Open to sailboats over 30' LOA, seven ORC, PHRF and one design classes will race, including superyachts. Exciting shoreside social events are planned in Safe Harbor Marinas in Newport, Portsmouth and Jamestown, Rhode Island. The website is www.shmarinas.com/safe-harbor-race-weekend.

"We're excited to sponsor Safe Harbor Race Weekend," said Anthony Miceli, Hubbell regional account manager. "It'll be a fun, action-filled weekend and, with 57 boats from 33' to 116' entered, it'll be the ideal setting to showcase our new Intelligent Dockside Power Pedestals."

Visually striking in appearance, Intelligent Dockside Power Pedestals offer a wide range of unique benefits to both the marina and boat owner. Monitored and controlled remotely by Hubbell's proprietary cloud-based software, the 30A, 50A, 100A and 400A pedestals provide real-time reporting on power and water consumption and extend a marina's Wi-Fi network. Each entails a stainless steel base with a removable aluminum top covered with weather-resistant powder coated paint to ensure they handle harsh marine conditions and continue to look like new.
