NEW CHAMBER BRUSH SPECIFICALLY FOR 6.5 CREEDMOOR

Long-range rifles are known for their astounding MOA precision, but even trace amounts of fouling in any part of the barrel will affect their accuracy. The first of its kind, Iosso Products' new 6.5 Creedmoor Chamber Cleaning Brush is designed specifically to safely scour the neck and shoulder areas of the chamber for exact shot-to-shot case seating, easier extraction and minimal wear to components.

Also available in 6.5 Grendel, the Iosso 6.5 Creedmoor Chamber Cleaning Brush has a solid shank construction and durable Nyflex bristles that hold their shape after repeated use—even when used with solvents. The thick fibers allow for a back-and-forth action that traditional metallic brushes can't replicate. Exacting tolerances ensure optimal, non-scratch cleaning. It threads onto any standard cleaning rod.

For the ultimate barrel cleaning from breech to muzzle, Chamber Cleaning Brushes can be used in combination with Iosso's Triple Action Oil Solution, bio-based Bore Cleaner and an Eliminator™ Bore Brush. The system removes copper, lead, carbon and powder fouling.

Iosso Products 6.5 Creedmoor and 6.5 Grendel Chamber Cleaning Brushes come two to a pack and cost \$9.95. A 4 oz. can of Triple Action Oil Solution is \$9.95 and a 1.5oz. tube of Bore Cleaner is \$7.49. Available in 19 sizes from .17 cal. to 50 BMG, Eliminator™ Bore Brushes cost \$4.49.
