FOR OUTDOOR FABRIC MAKEOVERS, THERE'S IOSSO

Whether it's a traditional cotton-based canvas or a modern technical acrylic, outdoor fabrics seem to be magnets for stains. Washing and scrubbing with a detergent may remove some of the dirt, but organics such as mold, mildew and algae will remain and leave blemishes that are difficult to remove. For a complete textile makeover, there's Mold & Mildew Stain Remover from Iosso Products. Biodegradable, it renews a wide range of fabrics, vinyl, wood and plastic without the harsh chemicals that alter colors and deteriorate materials.

While it cleans, Mold & Mildew Stain Remover eliminates the organics so they won't grow back. It works on natural and synthetic fabrics used in boat and RV covers, tents, outdoor furniture cushions and carpeting, awnings and umbrellas. It solves tough problems like bird and insect droppings, tree sap, fish blood, grease, oil and many food stains.

Biodegradable, Mold & Mildew Stain Remover can be disposed of without fear of polluting. Gentle on the skin, it has no strong, harsh odors.

Highly concentrated, one 12 oz. jar of Mold & Mildew Stain Remover makes up to three gallons of cleaning solution when mixed with water. After brushing or spraying on the surface, it's allowed to set for 15 minutes followed by thorough rinsing.

-more-

Using Iosso Water Repellent after cleaning with Mold & Mildew Stain Remover will keep fabrics looking fresh. It maintains the water resistance and vibrant colors of synthetic and natural materials.

Iosso Mold & Mildew Stain Remover comes in three convenient sizes. The 4 oz. size makes 1 gal. of solution and costs \$4.95; 12 oz. makes 3 gals. and is \$15.35; and 65 oz. makes 16 gals. and runs \$75. A 32 oz. spray bottle of Water Repellent covers approximately 40 sq. ft. and retails for \$21.49.
