PROS CHOOSE IOSSO FOR FABRIC CLEANING & PROTECTION

Professional boat and RV winterization jobs include cleaning and protecting a lot of fabric. Detailers and dealers help keep costs down and profits high by buying their chemicals in bulk. That's why Iosso Products offers Mold & Mildew Stain Remover, as well as Water Repellent, in large quantities. Made in the USA, the concentrated formulas are easy to prepare, less costly to ship and take up less space than quantities of consumer-size bottles. Best of all, they deliver high-quality, customer-pleasing results.

Biodegradable Iosso Mold & Mildew Stain Remover cleans canvas and cotton duck, vinyl, carpeting and technical acrylics such as Sunbrella without altering their color or flexibility. The highly-efficient formula removes organic stains like mold, mildew, algae, bird and spider droppings, leaf tannin and tree sap, as well as grease, oil, grime and many food and drink blemishes. It's also ideal for boat seats and nonskid decks. A concentrated powder that quickly dissolves in water, a 65-ounce pail makes 16.25 gallons of solution and costs \$75.

Iosso Water Repellent contains no solvents or silicone and dries without leaving a residue. Highly effective on all natural and synthetic fabrics, it protects them against dirt, oil, and environmental pollutants. One gallon of concentrated liquid makes five gallons of solution, covers 750 sq. ft. of material and costs \$170. Wholesale pricing is available.
