IOSSO FREES STICKY SNAPS & ZIPS

Dirt, grime and salt spray can play havoc with zippers and snaps. People even buy special tools to open and close them, occasionally damaging the surrounding fabric in the process. With Iosso E-Z Snap Zipper & Snap Lubricant, a few minutes of simple maintenance early can alleviate hours of frustration later.

Made in the USA, E-Z Snap is a unique gel-like formula that protects and lubricates plastic and metal zippers, snaps, hinges and other hardware. The formula won't dissolve with water, dissipate with heat or get sticky in the cold. Unlike a spray, it only goes where it's dabbed. Plus, it doesn't contain solvents, silicone or Teflon, so it's non-hazardous.

E-Z Snap is simple to use. For snaps, it's applied on the male side, then worked a few times into both sides of the fastener. Dabbed lightly every 8" or so on a zipper, opened and closed several times, it smooths the zip action and can make shrunken fabric easier to manage. A 1.5 oz. tube of Iosso E-Z Snap Zipper & Snap Lubricant costs only \$5.95.
