FROM DULL TO GLOWING TEAK IN ONE STEP

Whether it's a full deck or a few pieces of brightwork, few things elevate a boat from utilitarian to luxurious like teak. Exposed to the elements, however, the wood fades to a lifeless, dull grey. Teak Cleaner from Iosso Products brings back its rich, warm glow in one easy step — without resorting to harsh chemicals or too much elbow grease.

Made entirely in the USA, biodegradable Iosso Teak Cleaner removes dirt, oil, mold, mildew and algae, and their associated stains, without bleach or chlorine. It cleans the toughest of gunk but can be rinsed into waterways without concern.

Iosso Teak Cleaner is simply mixed with warm water until properly dissolved and applied to the wood. After standing for at least 10 minutes, the surface is ready to be lightly scrubbed and rinsed with clean water. After drying at least 24 hours, the teak is ready for any further application of stains or sealants.

Iosso Teak Cleaner isn't limited to wood. It's equally effective on synthetic decking, molded non-skid, vinyl, fabric, canvas and carpet.

A 16 oz. jar of Iosso Teak Cleaner makes four gallons of solution and costs \$15.35; an 80 oz. container costing \$67.80 makes 20 gallons.
