## WEST MARINE NOW CARRIES JBL FROM PROSPEC ELECTRONICS

West Marine, the world's largest boating supply retailer, now carries the JBL R3500 Marine Stereo Kit from manufacturer and supplier ProSpec Electronics. Including a R3500 receiver source unit with a silicone UV cover, a pair of grey or white 6-1/2" JBL Marine Stage speakers and an AM/FM antenna, the bundle is the perfect aftermarket audio solution for a wide range of boats, especially those where the components will be continually exposed to weather extremes.

"As any boat owner will attest, West Marine is renowned for a wide selection of innovative and high-quality products," said Josh Berry, ProSpec VP of sales and marketing. "That's why the JBL R3500 Marine Stereo Kit is such a great match. And with nearly 250 retail locations throughout the US and Canada, and a website that's second to none, they make it easy and convenient for consumers to acquire a premium, yet simple-to-install marine audio solution for under \$400."

ProSpec Electronics shapes how consumers listen to music outdoors by developing and introducing market-shifting audio products. With its reputation firmly established in 1986 as bringing the first true marine stereo system to market, it now offers a wide range of receivers, amplifiers, speakers, subwoofers and stereo packages from brands such as Harman Kardon, JBL, Infinity and MPro.
