## SEASUCKER TAKES MARINE LINE INTERNATIONAL AT METSTRADE

SeaSucker, manufacturer of award-winning vacuum-mounted boating and angling accessories, launches its international marine sales efforts at METSTRADE, 15–17 November, Amsterdam, stand 5.109. The announcement comes on the heels of the US-based company winning several top awards at the 2022 SEMA (Specialty Equipment Market Association) Show in Las Vegas.

Leveraging the power of the company's innovative Vacuum Mount technology, SeaSucker accessories install in seconds and remove without leaving a trace. Applied to any clean, non-porous surface, the 114mm mount secures up to 54kg while the 152mm version can hold an astounding 95kg.

SeaSucker's marine line includes a holder for virtually everything onboard, from cups to dive tanks. Angling-specific equipment includes rod holders, teaser reels and bait-cutting tables. Its latest introduction, Ridge Ready Monkey Bars, won two top SEMA honors and *Diesel Tech Magazine's* Show Stopper award. Ideal for carrying SUPs, canoes, kayaks and other small boats, the pair of crossbars feature oval Vacuum Mounts that fit between the ridges on the roofs of many modern vehicles.

-more-

No stranger to subjecting its Vacuum Mounts to highway speeds, SeaSucker's line of bicycle racks are used during the Tour de France and other prestigious international racing events. The company's cycling-related products are well-known globally.

"We're excited to expand our marine product audience to the world stage," said SeaSucker founder and CEO Chuck Casagrande. "Because we fabricate everything in-house, we're able to quickly respond to unique regional product needs. We expect this strategic move to strengthen our market-leading position domestically and internationally." Established in 2006, family-owned SeaSucker manufactures its products in the USA to ISO 9001:2015 standards using Lean Six Sigma methodology.
