A CLEAN RV BEGINS WITH SMC

Inside and out, RVs get dirty. But it's easy to keep them clean with Serious Multi-purpose Cleaner (SMC) from Shurhold. The convenient spray formula removes a wide range of stains and built-up crud without discoloring or harming the surface.

SMC doesn't contain bleach, so it's safe to use on delicate items like touchscreen displays and vinyl graphics. Its degreasing properties quickly remove oily exhaust stains and road grime on wheels. But it doesn't leave a slippery residue, making it equally ideal for carpeting, hard flooring and entry steps. It's perfect for completing a thorough cleaning prior to waxing.

As a one-step multipurpose, multisurface cleaner, using SMC couldn't be easier. The formula is simply sprayed on and wiped off. For stubborn areas such as bug splatters, it can set for three minutes to soften the grime.

Made in the USA, a 32-ounce spray bottle of Shurhold SMC (Serious Multi-purpose Cleaner) costs \$12.98. A one-gallon container of concentrate that mixes with water to make five gallons of solution is \$25.98.

Shurhold is dedicated to educating owners on RV value preservation. Inventor of the One Handle Does It All system, Shurhold manufactures specialty care items and accessories to clean, polish and detail.
