MOLDAWAY ELIMINATES COMMON RV STAINS

Between rain and wet clothes and humidity, RVs accumulate moisture that becomes the perfect breeding ground for mold, mildew and algae. Residential cleaning products are not the answer to combat growth; they typically contain bleach or chlorine that can seriously fade and degrade RV finishes. Instead, Moldaway from Shurhold is designed for such applications. It's the safe, easy way to get rid of organic stains and prevent their return.

Made in the USA, Moldaway is a highly-concentrated oxygenated cleaner that becomes active when mixed with water. It has no harsh odors, is gentle on the skin and won't leave behind a slippery residue.

Beyond organic stains, Moldaway is perfect for removing dirt and dried-on food and drink spills. It's safe to use on fiberglass, paint, vinyl, plastic, carpeting, wood, and most indoor and outdoor fabrics.

Using Moldaway is easy. Two tablespoons of the powder are mixed with a quart of warm water and stirred thoroughly. The solution is brushed or sponged onto the surface and allowed to remain saturated for 10 minutes; stubborn stains can soak longer. Then, the area is rinsed with fresh water. A 22 oz. jar of Shurhold Moldaway costs \$16.48.

Shurhold is dedicated to educating owners on RV value preservation. Inventor of the One Handle Does It All system, Shurhold manufactures specialty care items and accessories to clean, polish and detail.
