CLEANING AN RV IS EASIER WITH QUALITY SOAP

RVs are subjected to everything from road grime to bug splatters to tree sap. Many owners use massive amounts of soap to wash them, stripping away wax and polish in the process. With Brite Wash from Shurhold, it's easy to achieve a clean, showroom-like finish without affecting any protective layers or dulling the surface.

Made in the USA, Brite Wash is biodegradable and resists water spotting. It's scientifically formulated to clean paint, clear coat, fiberglass, vinyl, rubber, outdoor fabrics and other RV surfaces.

Highly concentrated, only three ounces of Brite Wash is needed per two gallons of fresh water. After pre-rinsing away loose debris, the solution is best applied with a high-quality brush or wash mitt. Once rinsed, the surface can be wiped down if hard or chemically-treated water is used. A 32 oz. bottle of Shurhold Brite Wash costs \$14.98; 1 gal. is \$34.98.

Shurhold is dedicated to educating owners on RV value preservation. Inventor of the One Handle Does It All system, Shurhold manufactures specialty care items and accessories to clean, polish and detail.
