POLISHER MAKES SHORT WORK OF LONG JOBS

Many owners know their boats aren't looking their best due to UV oxidation, but the prospect of restoring them by hand is overwhelming. The award-winning World's Best Dual Action Polisher from Shurhold makes short work of long, exhausting jobs. It will safely buff out oxidation to reveal the hull and deck's deep, original color and can quickly add a layer of protective wax to maintain a showroom-like shine for months to come.

Many high-rpm polishers are simply too powerful and can leave swirl marks, or even burn the finish, before the user knows what's happening. The Dual Action Polisher has a 6" oscillating head that's not only safe but highly effective. With a variable-speed 500W motor, it operates between 2,500–6,500 opm to accommodate a wide range of tasks.

To avoid muscle fatigue, the Shurhold Dual Action Polisher has a comfortable main grip with an ergonomic soft-touch head, adjustable D-handle and a removable and reversible side handle. At only 4.4 lbs., it can be used for hours without tiring.

The on/off button is conveniently located on the top of the housing, while the speed control is at the rear, where it won't be inadvertently changed while working. A 20' L power cord allows the user to move and work without a bulky plug getting in the way. Because it's commonly used around water, it includes a 120V AC GFCI device for safe operation.

Highly adaptable, the Dual Action Polisher accommodates a wide range of Shurhold pads designed for specialized tasks such as scrubbing, compounding, waxing and polishing. And with a Velcro backing plate, it's fast and easy to switch between them. A video is at www.bit.ly/DualActionPolisher.

The Dual Action Polisher includes a pad wrench and pair of replacement carbon brushes that stow inside the rugged canvas storage bag. Shurhold's World's Best Dual Action Polisher comes with a one-year limited warranty and costs \$159.98; pads start at \$8.48.

Dedicated to educating boat owners, Shurhold provides key tips for boat value preservation at www.shurhold.com. Inventor of the One Handle Does It All system, Shurhold manufactures specialty care items and accessories to clean, polish and detail.
