RV WASH MITT GETS THE JOB DONE FAST

Whether it's a small towable or large Class A pusher, washing an RV is a time-consuming task. That's why savvy RVers use a Chenille Microfiber Premium Scratch-Free Wash Mitt from Shurhold. The softest wash mitt made, it holds massive quantities of soapy water to get the job done fast.

Over time, rags and sponges can leave minute scratches and swirls in RV finishes. Made in the USA, the Chenille Microfiber Premium Scratch-Free Wash Mitt uses only premium 80/20 blended microfiber. The incredibly soft tufts trap abrasive dirt deep in the fibers, and away from paint, fiberglass and vinyl graphics. When the mitt is rinsed in the wash solution, the grime is released. Because it holds so much water, larger sections of the vehicle can be cleaned between trips to the bucket.

The double-sided mitt fits over the hand and has a double-stitched wrist band for a snug fit. It's easily cleaned in a washing machine and left to air dry. The Shurhold Chenille Microfiber Premium Scratch-Free Wash Mitt costs \$9.98.

Shurhold is dedicated to educating owners on RV value preservation. Inventor of the One Handle Does It All system, Shurhold manufactures specialty care items and accessories to clean, polish and detail.
