ONE HANDLE. FORTY TOOLS. JOB DONE. (RV)

Mechanics use sockets instead of individual wrenches because they can complete a project in less time and the tools take up less storage space. It's no different with the innovative Shurhold One-Handle-Does-It-All-System. RV owners need only a single handle and any of over forty specialized quick-attach tools to get the job done fast.

The foundation of the Shurhold system is the company's high-strength handles. Manufactured in the USA from polished, triple-anodized marine-grade aluminum, they're lightweight and corrosion-resistant, and have comfortable rubber no-slip grips.

Shurhold handles are offered in 13", 30", 40" and 60" fixed lengths and two adjustable types. The 6' Telescoping version locks at four intervals between 40" and 72" while the 9' Telescoping model locks at five positions between 60" and 108".

Each Shurhold attachment clicks easily and securely onto any of the handles using the unique SHUR-LOK quick-release system. To remove, it's as simple as depressing the button and sliding the tool off.

Shurhold offers a One-Handle-Does-It-All-System attachment for virtually any onboard need. Cleaning tools include a wide range of stiff and soft-bristled brushes, mops, brooms, swivel scrubbers and squeegees. The 10" curved adapter and 30" extension are perfect for reaching an RV

roofline. For the sportsman, there are specialized fishing and boating equipment. A GoPro/VIRB camera adapter lets RVers capture the action—even underwater.

Shurhold Fixed Handles start at \$9.98 and the Telescoping models at \$38.98. Attachments start at \$9.98.

Shurhold is dedicated to educating owners on RV value preservation. Inventor of the One-Handle-Does-It-All-System, Shurhold is the leading manufacturer of premium detailing supplies that help clean, polish and protect RVs.
