EXPERT RV DETAILERS USE PROFESSIONAL TOOLS

If there's one piece of advice expert RV detailers freely pass on it's to use professional tools—right down to the pail. And none is better than Shurhold's Deluxe One Bucket System. It was designed from the ground up to make the cleaning process fast, easy and even enjoyable.

Made in the USA, the system starts with the World's Best Rope Handle Bucket. Thicker and sturdier than standard five-gallon plastic pails, it comes with a soft rubber Bucket Base to keep it from sliding and tipping when using a long-handled brush. Instead of an uncomfortable wire loop that's prone to rusting and scratching finishes, the Shurhold bucket has a soft, 3/4" braided nylon rope handle.

At the bottom of the pail is the removable Bucket Grate. Dirt and debris fall through the elevated lattice design, so the cleaning tool is always in fresh, soapy water. Brushes can be scrubbed against it to remove grime. It has two integrated 3 oz. measuring cups for accurate proportioning of cleaning products.

The removable Bucket Caddy stores bottles, tools and other supplies and sits inside on top of the grate. An integrated handle makes it ideal for keeping cleaning products close to the detailing project.

Finally, the Shurhold system includes a Bucket Seat/Lid. Snapped onto the bucket's rim, the padded device not only holds everything in place

but creates a convenient and comfortable stool. Available in black and white, the Shurhold Deluxe One Bucket System includes the bucket, base, grate, caddy and seat/lid, and sells for \$74.98. A video is at www.bit.ly/onebucketsystem.

Shurhold is dedicated to educating owners on RV value preservation. Inventor of the One-Handle-Does-It-All-System, Shurhold is the leading manufacturer of premium detailing supplies that help clean, polish and protect RVs.
